

**Notice of Availability of Final Record of Decision
for LHAAP-18/24 Environmental Site
Longhorn Army Ammunition Plant, Karnack, Texas**

The United States Army announces a Record of Decision (ROD) document for an environmental site at Longhorn Army Ammunition Plant. The ROD, which documents the selected remedy for the site, has been signed by the U.S. Army and the U.S. Environmental Protection Agency and has the concurrence of the Texas Commission on Environmental Quality as follows:

ROD signed February 25, 2020

LHAAP-18/24, Burning Ground No. 3 and Unlined Evaporation Pond (UEP), Longhorn Army Ammunition Plant Karnack, Texas; Selected Remedy: Enhanced groundwater extraction and treatment, Land Use Controls, enhanced in-situ bioremediation for Shallow Zone and Wilcox formation groundwater inside and outside the containment area, thermal dense non-aqueous phase liquid removal, maintenance of the existing cap over the UEP, unsaturated soil excavation and off-site disposal, Monitored Natural Attenuation (MNA) and long term monitoring.

Copies of the signed ROD is available for public review at the Marshall Public Library,
300 S. Alamo, Marshall, Texas, 75670, Monday, Tuesday, Thursday (9:30 AM – 7:30 PM)
Wednesday and Friday (9:00 AM – 5:30 PM), Saturday (9:30 AM – 3:30 PM).

For information regarding this site, contact Dr. Rose M. Zeiler, Longhorn Army Ammunition Plant, P.O. Box 220, Ratcliff, Arkansas, 72951; phone number 479-635-0110; e-mail

rose.m.zeiler.civ@mail.mil.

The Responsiveness Summary from the Final ROD for LHAAP-18/24 is provided here. The Responsiveness Summary provides the U.S. Army, EPA, and TCEQ with information about community concerns regarding the preferred remedial alternative for the site, as it was presented for public review and comment in the Proposed Plan. It also provides a formal record of the public's comments that were considered in the decision to select the preferred alternative, and the mechanism for the U.S. Army to respond to public comments.
