CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

IN CASE OF: LEAK, SPILL FIRE OR OTHER EMERGENCY CALL TOLL FREE CHEMTREC 1-800-424-9300

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of fading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

IN CASE OF: LEAK, SPILL FIRE OR OTHER EMERGENCY CALL TOLL FREE CHEMTREC 1-800-424-9300

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

IN CASE OF: LEAK, SPILL FIRE OR OTHER EMERGENCY CALL TOLL FREE CHEMTREC 1-800-424-9300

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

IN CASE OF: LEAK, SPILL FIRE OR OTHER EMERGENCY CALL TOLL FREE CHEMTREC 1-800-424-9300

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.

(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.

(If tank is single compartment please sign Compartment #1)

SPECIAL INSTRUCTIONS

IN CASE OF: LEAK, SPILL FIRE OR OTHER EMERGENCY CALL TOLL FREE CHEMTREC 1-800-424-9300

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

Compartment #1 CONSIGNEE SIGNATURE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

IN CASE OF: LEAK, SPILL FIRE OR OTHER EMERGENCY CALL TOLL FREE CHEMTREC 1-800-424-9300

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility, that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility, that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product STRANCO, INC, has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 180 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.

(If tank is single compartment please sign Compartment #1)

We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility: that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.

(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product STRANCO, INC. has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility: that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.

(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility: that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.

(If tank is single compartment please sign Compartment #1)

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility: that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The signature of the consignee STRANCO, INC. has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the tanker the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed.
We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility: that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.

(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility; that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

CONSIGNEE

The shipper of the product **STRANCO, INC.** Has developed the following procedure to insure that the product you ordered is received into the proper container. We ask that you review the paperwork prepared by the shipper and review the label the shipper has attached to the tank valve. Please instruct the driver to hook the hose to the proper outlet valve on the tank and the proper inlet valve leading to your tank and sign the statement below showing that the procedure was followed. We ask you to do this for each compartment to be unloaded. The driver is instructed not to unload unless this procedure is followed. We thank you for your cooperation in insuring a safe delivery.

I have checked the documents pertaining to this shipment and do certify that the hose is connected to the proper valve on the tank trailer and the proper fitting on storage facility: that the valve and piping is open to receive product at a rate of 150 gallons per minute and storage facility has enough room to hold the amount designated on the bill of lading.
(If tank is single compartment please sign Compartment #1)

DAILY CONTRACTOR QUALITY CONTROL REPORT

Shaw Environmental, Inc.
3010 Briarpark Drive
Houston, Texas 77042

Project Name: Longhorn AAP
Project Location: Pistol Range & LHAAP-04
Shaw Report No.: 1 (Aug 4, 2009)

WEATHER: (x) Clear ( ) P. Cloudy ( ) Cloudy
Wind_____
Temperature: High__95____ Low__70_____
Precipitation: Today: None Prev. Period (i.e., weekend): 8 inches rain during week prior to start of field work
Site Conditions: ground is soft from previous rainfall
Lost Time Due to Inclement Weather: 0%

PRIME CONTRACTOR/SUBCONTRACTORS AND AREAS OF RESPONSIBILITY/LABOR COUNT:
(Include number, trade, hours, employer, location, and description of work.)

a. Shaw – Praveen Srivastav (Project Manager), Steve Moreau (Construction Manager), Bill Squire (SSO/QC), Allen Willmore (Geologist), Rich Rennhack (Equipment Operator), Clyde Woods (Equipment Operator)

b.

c.

d.

e.

f.

WORK PERFORMED: (Include location and description of work performed including equipment used. Refer to work performed by prime and/or subcontractors as previously designated by letter above. Attached subcontractor daily activity reports when applicable):

Receive equipment and supplies; perform site walk and conduct preparatory inspections of Pistol Range and LHAAP-04; begin construction of access road into Pistol Range

MATERIALS AND/OR EQUIPMENT DELIVERED: (Include a description of materials and/or equipment, quantity, date/hours used, date of safety check, and supplier)

(1) Hitachi 225 Excavator, (1) Case 621D Loader, (1) 150' roll geotextile fabric, miscellaneous Health & Safety supplies, (1) PDR 1000 aerosol monitor

RESULTS OF SURVEILLANCE: (Include satisfactory work completed or deficiencies with action to be taken.)
a. Preparatory Inspection: (Attach Minutes)

Satisfactory

b. Initial Inspection: (Attach Minutes)

NA

c. Follow-up Inspection: (List results of inspection compared to specification requirements.)

NA

d. Safety Inspection: (Include safety violations and corrective actions taken.)

No deficiencies

OFF-SITE SURVEILLANCE ACTIVITIES: (Include action taken.)

NA

QC TESTS PERFORMED AND RESULTS: (As required by plans and/or specifications.)

NA

VERBAL INSTRUCTIONS RECEIVED OR GIVEN: (List any instructions received from government personnel or given by Shaw on construction deficiencies identified, required retesting, etc., and the corresponding action to be taken.)

None

CHANGED CONDITIONS/DELAYS/CONFLICTS ENCOUNTERED: (List any conflicts with the delivery order [i.e., Scope of Work and/or drawings], delays to the project attributable to site, and weather conditions, etc.)

None

SUBMITTALS REVIEWED: (Include submittal number, specification reference, and name of submitter.)

Shaw – Final Removal Action Work Plan, Former Pistol Range and LHAAP-04
Shaw – Final Installation-wide Work Plan Appendix A, Health & Safety Plan

MEETINGS: (List the meetings, i.e., Health and Safety, Site Operations, Cost/Schedule, etc.)
Site orientation and Health & Safety

VISITORS:
None

REMARKS: (Any additional information pertinent to the project not defined by the previous entries.)

CONTRACTOR'S VERIFICATION: The above report is complete and correct. All material and equipment used and work performed during this reporting period are in compliance with the contract plans and specifications except as noted above.

PRIME CONTRACTOR/SUBCONTRACTORS AND AREAS OF RESPONSIBILITY/LABOR COUNT:
(Include number, trade, hours, employer, location, and description of work.)

a. Shaw – Praveen Srivastav (Project Manager), Greg Jones (Remediation Manager), Susan Watson (Project Engineer), Steve Moreau (Construction Manager), Bill Squire (SSO/QC), Allen Willmore (Geologist), Rich Rennhack (Equipment Operator), Clyde Woods (Equipment Operator)

b.

c.

d.

e.

f.

WORK PERFORMED: (Include location and description of work performed including equipment used. Refer to work performed by prime and/or subcontractors as previously designated by letter above. Attached subcontractor daily activity reports when applicable):

Receive roll off boxes and construction supplies; conduct initial inspections of Pistol Range and LHAAP-04; complete construction of access road into Pistol Range; begin excavation of the Pistol Range target embankment; collect soil and concrete samples for disposal characterization

MATERIALS AND/OR EQUIPMENT DELIVERED: (Include a description of materials and/or equipment, quantity, date/hours used, date of safety check, and supplier)

(6) 20 yd roll off containers, lined, (5 truckloads) dirt for Pistol Range access road

RESULTS OF SURVEILLANCE: (Include satisfactory work completed or deficiencies with action to be taken.)
a. Preparatory Inspection: (Attach Minutes)

NA

b. Initial Inspection: (Attach Minutes)

Pistol Range - Satisfactory

c. Follow-up Inspection: (List results of inspection compared to specification requirements.)

NA

d. Safety Inspection: (Include safety violations and corrective actions taken.)

No deficiencies

OFF-SITE SURVEILLANCE ACTIVITIES: (Include action taken.)

NA

QC TESTS PERFORMED AND RESULTS: (As required by plans and/or specifications.)

Aerosol monitoring at Pistol Range – no exceedances

VERBAL INSTRUCTIONS RECEIVED OR GIVEN: (List any instructions received from government personnel or given by Shaw on construction deficiencies identified, required retesting, etc., and the corresponding action to be taken.)

None

CHANGED CONDITIONS/DELAYS/CONFLICTS ENCOUNTERED: (List any conflicts with the delivery order [i.e., Scope of Work and/or drawings], delays to the project attributable to site, and weather conditions, etc.)

Site conditions (ie soft ground) at the Pistol Range prevented the loader from scooping up excavated soil at the excavation area, therefore an intermediate stockpile of excavated soil was placed on plastic sheeting and was subsequently transferred to the roll off containers

SUBMITTALS REVIEWED: (Include submittal number, specification reference, and name of submitter.)
NA

MEETINGS: (List the meetings, i.e., Health and Safety, Site Operations, Cost/Schedule, etc.)
Tailgate Safety Meeting to discuss Daily Operations and Health & Safety

VISITORS:
None

REMARKS: (Any additional information pertinent to the project not defined by the previous entries.)

LHAAP-04 disposal characterization samples collected:
04SD01 (0-2) for perchlorate, TCLP RCRA metals, RCI analyses
04SD02 (0-2) for perchlorate, TCLP RCRA metals, RCI analyses
04SD03 (0-3) for perchlorate, TCLP RCRA metals, RCI analyses
04SD04 (0-2) for perchlorate, TCLP RCRA metals, RCI analyses
04SD05 (0-4) for perchlorate, TCLP RCRA metals, RCI analyses
04CONC01 for perchlorate analysis
04CONC02 for perchlorate analysis

Pistol Range confirmation samples collected:
PRCSFL04 for lead analysis
PRCSWDF (plus MS/MSD) for lead analysis
PRCL01 for VOC, SVOC, TAL metals analysis

CONTRACTOR'S VERIFICATION: The above report is complete and correct. All material and equipment used and work performed during this reporting period are in compliance with the contract plans and specifications except as noted above.

Bill Squire

LHAAP-04:

- Conduct follow up inspection of LHAAP-04;
- lay plastic sheeting on ground (as needed) in truck load-out area;
- move stockpiled soil and broken concrete onto plastic sheeting in load-out area;
- nominal 10 inch clay tile pipe lined with nominal 8 inch PVC pipe uncovered in 10 ft depth excavation late in the day on 8/17; pipe was observed to be leaking water into 10 ft excavation;
- excavate area under concrete pad to 5 ft depth; uncover potential ACM pipe leaking water into excavation area; pipe left in place and excavation continued around pipe
- collect all remaining confirmation samples from walls and floors of all excavation areas and water sample from leaking pipe in 10 ft excavation (see remarks section);
- cover stockpiled soil with plastic sheeting at end of day

MATERIALS AND/OR EQUIPMENT DELIVERED: (Include a description of materials and/or equipment, quantity, date/hours used, date of safety check, and supplier)

None

RESULTS OF SURVEILLANCE: (Include satisfactory work completed or deficiencies with action to be taken.)
a. Preparatory Inspection: (Attach Minutes)

NA

b. Initial Inspection: (Attach Minutes)

NA

c. Follow-up Inspection: (List results of inspection compared to specification requirements.)

All work completed in accordance with Work Plan

d. Safety Inspection: (Include safety violations and corrective actions taken.)

No deficiencies

OFF-SITE SURVEILLANCE ACTIVITIES: (Include action taken.)

NA

QC TESTS PERFORMED AND RESULTS: (As required by plans and/or specifications.)

Aerosol monitoring at LHAAP-04 – no exceedances

Maximum TWA – 0.007 mg/m^3; Min - max Direct Reading – 0.000 mg/m^3 and 0.000 mg/m^3

VERBAL INSTRUCTIONS RECEIVED OR GIVEN: (List any instructions received from government personnel or given by Shaw on construction deficiencies identified, required retesting, etc., and the corresponding action to be taken.)

None

CHANGED CONDITIONS/DELAYS/CONFLICTS ENCOUNTERED: (List any conflicts with the delivery order [i.e., Scope of Work and/or drawings], delays to the project attributable to site, and weather conditions, etc.)

None

SUBMITTALS REVIEWED: (Include submittal number, specification reference, and name of submitter.)
NA

MEETINGS: (List the meetings, i.e., Health and Safety, Site Operations, Cost/Schedule, etc.)
Tailgate Safety Meeting to discuss Daily Operations and Health & Safety

VISITORS:
None

REMARKS: (Any additional information pertinent to the project not defined by the previous entries.)
LHAAP-04 confirmation samples collected:
04CSWOP for perchlorate and mercury analysis
04CSWOP-QC for perchlorate and mercury analysis
04CSWMN for perchlorate analysis
04CSWON for perchlorate analysis
04CSWPM for perchlorate analysis
04CSWRQ with MS/MSD for perchlorate analysis and mercury analysis
04CSWQH for perchlorate analysis and mercury analysis
04CSWFR for perchlorate analysis and mercury analysis
04CSFL06(10) for perchlorate analysis
04CSFL07(5) for perchlorate analysis
04CSFL07(5)-QC for perchlorate analysis
04CSFL08(5) for perchlorate analysis

LHAAP-04 other samples collected:
04CLAYPIPE-081809 for perchlorate, VOC, SVOC, TAL metals, and mercury analyses - water sample -

CONTRACTOR'S VERIFICATION: The above report is complete and correct. All material and equipment used and work performed during this reporting period are in compliance with the contract plans and specifications except as noted above.

WORK PERFORMED: (Include location and description of work performed including equipment used. Refer to work performed by prime and/or subcontractors as previously designated by letter above. Attached subcontractor daily activity reports when applicable):

General: NA

Pistol Range:

- No activity today

LHAAP-04:

- Finish pumping standing water from excavation and transport to groundwater treatment plant for treatment through system; estimated 6000 gallons total in excavation. Need for treatment based on results of water sample collected 8/18.
- Cut HDPE pipe lining the inside of the clay pipe and let water drain out into 10 ft excavation
- Sever HDPE pipe and seal cut end with concrete; pull approximately 120 ft of HDPE pipe from inside clay tile pipe
- Remove approximately 15 ft of 12-inch diameter transite pipe in excavation area; seal exposed end in 5 ft excavation wall with concrete
- Excavate 10 ft area to a depth of 13 ft; excavation area expanded to north and east
- Collect re-confirmation sample from floor of 13 ft excavation (see remarks section)
- Continue loadout of stockpiled soil – 18 trucks loaded and sent to Woolworth Rd LF (see remarks section)
- Receive 31 loads (approximately 12 yds/load) of clean clay backfill; backfill southern end of eastern leg and stockpile remainder; area cleared for backfilling based on results of confirmation soil sampling

MATERIALS AND/OR EQUIPMENT DELIVERED: (Include a description of materials and/or equipment, quantity, date/hours used, date of safety check, and supplier)

Clean clay backfill

Shaw CQCSM (or designee) Date

DAILY CONTRACTOR QUALITY CONTROL REPORT

Shaw Environmental, Inc.
3010 Briarpark Drive
Houston, Texas 77042

Project Name: Longhorn AAP
Project Location: Pistol Range & LHAAP-04
Shaw Report No.: 28 (Sep 11, 2009)

WEATHER: ( ) Clear (x) P. Cloudy (x) Cloudy
Wind_____
Temperature: High__97____ Low__74_____
Precipitation: Today: Clear to Ptly Cloudy Prev. Period (i.e., weekend): Dry weekend
Site Conditions: dry
Lost Time Due to Inclement Weather: 0%

PRIME CONTRACTOR/SUBCONTRACTORS AND AREAS OF RESPONSIBILITY/LABOR COUNT:
(Include number, trade, hours, employer, location, and description of work.)
a. Shaw – Steve Moreau (Construction Manager), Allen Willmore (Geologist), Clyde Woods (Equipment Operator)

b. JW Rentals, Inc. - Trucking

c. Triad-Roll Off Boxes

d.

e.

WORK PERFORMED: (Include location and description of work performed including equipment used. Refer to work performed by prime and/or subcontractors as previously designated by letter above. Attached subcontractor daily activity reports when applicable):

General: NA

Pistol Range:

- Continue load out of Roll-off Boxes

LHAAP-04:

- Continue load out of stockpiled soil – 13 trucks loaded and sent to Woolworth Rd LF (see remarks section)
- Soil stockpile covered with plastic sheeting at end of day

MATERIALS AND/OR EQUIPMENT DELIVERED: (Include a description of materials and/or equipment, quantity, date/hours used, date of safety check, and supplier)

None

RESULTS OF SURVEILLANCE: (Include satisfactory work completed or deficiencies with action to be taken.)
a. Preparatory Inspection: (Attach Minutes)

NA

b. Initial Inspection: (Attach Minutes)

NA

c. Follow-up Inspection: (List results of inspection compared to specification requirements.)

All work completed in accordance with Work Plan

d. Safety Inspection: (Include safety violations and corrective actions taken.)

No deficiencies

OFF-SITE SURVEILLANCE ACTIVITIES: (Include action taken.)

NA

QC TESTS PERFORMED AND RESULTS: (As required by plans and/or specifications.)

Aerosol monitoring at LHAAP-04 – no exceedances

Maximum TWA – 0.000 mg/m^3; Min - max Direct Reading – 0.000 mg/m^3 and 0.000 mg/m^3

VERBAL INSTRUCTIONS RECEIVED OR GIVEN: (List any instructions received from government personnel or given by Shaw on construction deficiencies identified, required retesting, etc., and the corresponding action to be taken.)

None

CHANGED CONDITIONS/DELAYS/CONFLICTS ENCOUNTERED: (List any conflicts with the delivery order [i.e., Scope of Work and/or drawings], delays to the project attributable to site, and weather conditions, etc.)

Excavation is wider and deeper than originally planned due to unexpected perchlorate exceedences.

SUBMITTALS REVIEWED: (Include submittal number, specification reference, and name of submitter.)
NA

MEETINGS: (List the meetings, i.e., Health and Safety, Site Operations, Cost/Schedule, etc.)
Tailgate Safety Meeting to discuss Daily Operations and Health & Safety

VISITORS:
Praveen Srivastav, Susan Watson.

REMARKS: (Any additional information pertinent to the project not defined by the previous entries.)

LHAAP-04 samples collected: 04CSFL05RE(13), 04CSFL02RE(7), 04CSFL09RE(13), 04CSWCDRE(4)L, 04CSFL13(8), 04CSWCDRE(19)U, 04CSFL07RE(11), 04CSWD1E, 04CSWD1EQC, 04CSWEF3, 04CSFL12RE(13), 04CSWR1H, 04CSWFR1

Pistol Range samples collected: None

Loadout of stockpiled soil:

- Manifested as Class II Non-Hazardous, Mercury and Perchlorate contaminated soil
- 13 trucks loaded @ 18 yds/truck (estimated)
- Manifest nos. 10016 through 10028
- Sent to Allied Waste - Woolworth Rd Landfill, 10580 Woolworth Rd, Keithville, LA 71047

Loadout of roll-off boxes:

- Manifested as Class II Non-Hazardous, lead contaminated soil
- 3 boxes hauled away @ 16 yds/box (estimated)
- Manifest nos. 20000018 and 20000019

Sent to Allied Waste - Woolworth Rd Landfill, 10580 Woolworth Rd, Keithville, LA 71047

CONTRACTOR'S VERIFICATION: The above report is complete and correct. All material and equipment used and work performed during this reporting period are in compliance with the contract plans and specifications except as noted above.

DAILY CONTRACTOR QUALITY CONTROL REPORT

Shaw Environmental, Inc.
3010 Briarpark Drive
Houston, Texas 77042

Project Name: Longhorn AAP
Project Location: Pistol Range & LHAAP-04
Shaw Report No.: 34 (Sep 22, 2009)

WEATHER: (x) Clear ( ) P. Cloudy ( ) Cloudy
Wind_____
Temperature: High___85____ Low__68_____
Precipitation: Today: None Prev. Period (i.e., weekend): Dry
Site Conditions: dry
Lost Time Due to Inclement Weather: 0%

PRIME CONTRACTOR/SUBCONTRACTORS AND AREAS OF RESPONSIBILITY/LABOR COUNT:
(Include number, trade, hours, employer, location, and description of work.)

a. Shaw – Steve Moreau (Construction Manager), Allen Willmore (Geologist), Clyde Woods (Equipment Operator)

b. Stranco Trucking

c.

d.

e.

WORK PERFORMED: (Include location and description of work performed including equipment used. Refer to work performed by prime and/or subcontractors as previously designated by letter above. Attached subcontractor daily activity reports when applicable):

General: NA

Pistol Range:

- No activity today

LHAAP-04:

- Continue load out of stockpiled soil – 5 trucks loaded and sent to Woolworth Rd LF (see remarks section)
- Soil stockpile covered with plastic sheeting at end of day

MATERIALS AND/OR EQUIPMENT DELIVERED: (Include a description of materials and/or equipment, quantity, date/hours used, date of safety check, and supplier)

None

RESULTS OF SURVEILLANCE: (Include satisfactory work completed or deficiencies with action to be taken.)
a. Preparatory Inspection: (Attach Minutes)

NA

b. Initial Inspection: (Attach Minutes)

NA

c. Follow-up Inspection: (List results of inspection compared to specification requirements.)

All work completed in accordance with Work Plan

d. Safety Inspection: (Include safety violations and corrective actions taken.)

No deficiencies

OFF-SITE SURVEILLANCE ACTIVITIES: (Include action taken.)

NA

QC TESTS PERFORMED AND RESULTS: (As required by plans and/or specifications.)

Aerosol monitoring at LHAAP-04 – no exceedances

Maximum TWA – 0.000 mg/m^3; Min - max Direct Reading – 0.000 mg/m^3 and 0.000 mg/m^3

VERBAL INSTRUCTIONS RECEIVED OR GIVEN: (List any instructions received from government personnel or given by Shaw on construction deficiencies identified, required retesting, etc., and the corresponding action to be taken.)

None.

CHANGED CONDITIONS/DELAYS/CONFLICTS ENCOUNTERED: (List any conflicts with the delivery order [i.e., Scope of Work and/or drawings], delays to the project attributable to site, and weather conditions, etc.)

Excavation is wider and deeper than originally plan due to unexpected perchlorate exceedences.

SUBMITTALS REVIEWED: (Include submittal number, specification reference, and name of submitter.)
NA

MEETINGS: (List the meetings, i.e., Health and Safety, Site Operations, Cost/Schedule, etc.)
Tailgate Safety Meeting to discuss Daily Operations and Health & Safety

VISITORS:
None

REMARKS: (Any additional information pertinent to the project not defined by the previous entries.)

LHAAP-04 samples collected: None

Pistol Range samples collected: None

Loadout of stockpiled soil:

- Manifested as Class II Non-Hazardous, Mercury and Perchlorate contaminated soil
- 5 trucks loaded @ 18 yds/truck (estimated)
- Manifest nos. 10029 through 10033
- Sent to Allied Waste - Woolworth Rd Landfill, 10580 Woolworth Rd, Keithville, LA 71047

CONTRACTOR'S VERIFICATION: The above report is complete and correct. All material and equipment used and work performed during this reporting period are in compliance with the contract plans and specifications except as noted above.

Aerosol monitoring at LHAAP-04 – no exceedances

Maximum TWA – 0.000 mg/m^3 ; Min - max Direct Reading – 0.000 mg/m^3 and 0.000 mg/m^3

VERBAL INSTRUCTIONS RECEIVED OR GIVEN: (List any instructions received from government personnel or given by Shaw on construction deficiencies identified, required retesting, etc., and the corresponding action to be taken.)

None.

CHANGED CONDITIONS/DELAYS/CONFLICTS ENCOUNTERED: (List any conflicts with the delivery order [i.e., Scope of Work and/or drawings], delays to the project attributable to site, and weather conditions, etc.)

Excavation was wider and deeper than originally planned due to unexpected perchlorate exceedences.

SUBMITTALS REVIEWED: (Include submittal number, specification reference, and name of submitter.)
NA

MEETINGS: (List the meetings, i.e., Health and Safety, Site Operations, Cost/Schedule, etc.)
Tailgate Safety Meeting to discuss Daily Operations and Health & Safety

VISITORS:
None.

REMARKS: (Any additional information pertinent to the project not defined by the previous entries.)

LHAAP-04 samples collected: None

Pistol Range samples collected: None

Loadout of stockpiled soil:

- Manifested as Class II Non-Hazardous, Mercury and Perchlorate contaminated soil, and Asbestos Piping; Manifest nos. 10069 and 10070
- 2 trucks loaded @ 18 yds/truck (estimated) (Mercury and Perchlorate)
- Sent to Allied Waste - Woolworth Rd Landfill, 10580 Woolworth Rd, Keithville, LA 71047

Hauled in 59 truck loads of dirt from Tony Pczaikowski Site in Karnack, Texas. Each load contained an estimated 16 yards.

CONTRACTOR'S VERIFICATION: The above report is complete and correct. All material and equipment used and work performed during this reporting period are in compliance with the contract plans and specifications except as noted above.

Shaw Environmental, Inc.
3010 Briarpark Drive
Houston, Texas 77042

Project Name: Longhorn AAP
Project Location: Pistol Range & LHAAP-04
Shaw Report No.: 42 (Oct 1, 2009)

WEATHER: ( ) Clear (x) P. Cloudy ( ) Cloudy
Wind From northwest
Temperature: High 86 Low 67
Precipitation: Today: light rain Prev. Period (i.e., weekend): Dry
Site Conditions: dry to wet
Lost Time Due to Inclement Weather: 0%

PRIME CONTRACTOR/SUBCONTRACTORS AND AREAS OF RESPONSIBILITY/LABOR COUNT:
(Include number, trade, hours, employer, location, and description of work.)

a. Shaw – Steve Moreau (Construction Manager), Allen Willmore (Geologist), Ray Wagner (Equipment Operator)

b. Bar H Concrete

c.

d.

e.

WORK PERFORMED: (Include location and description of work performed including equipment used. Refer to work performed by prime and/or subcontractors as previously designated by letter above. Attached subcontractor daily activity reports when applicable):

General: NA

Pistol Range:

- None

LHAAP-04:

- Soil stockpile covered with plastic sheeting at end of day
- Collected 2 soil samples (see remarks below)
- Hauled in dirt from Tony Pczaikowski site (see remarks below)
- Work hours: 6:45 AM -5:30 PM

MATERIALS AND/OR EQUIPMENT DELIVERED: (Include a description of materials and/or equipment, quantity, date/hours used, date of safety check, and supplier)

None

RESULTS OF SURVEILLANCE: (Include satisfactory work completed or deficiencies with action to be taken.)
a. Preparatory Inspection: (Attach Minutes)

NA

b. Initial Inspection: (Attach Minutes)

NA

c. Follow-up Inspection: (List results of inspection compared to specification requirements.)

All work completed in accordance with Work Plan

d. Safety Inspection: (Include safety violations and corrective actions taken.)

No deficiencies

OFF-SITE SURVEILLANCE ACTIVITIES: (Include action taken.)

NA

QC TESTS PERFORMED AND RESULTS: (As required by plans and/or specifications.)

Aerosol monitoring at LHAAP-04 – no exceedances

Maximum TWA – 0.000 mg/m^3 ; Min - max Direct Reading – 0.000 mg/m^3 and 0.000 mg/m^3

VERBAL INSTRUCTIONS RECEIVED OR GIVEN: (List any instructions received from government personnel or given by Shaw on construction deficiencies identified, required retesting, etc., and the corresponding action to be taken.)

Susan Watson instructs crew to collect sample from adjacent vertical wall north of floors 09 and 11.

CHANGED CONDITIONS/DELAYS/CONFLICTS ENCOUNTERED: (List any conflicts with the delivery order [i.e., Scope of Work and/or drawings], delays to the project attributable to site, and weather conditions, etc.)

Excavation is wider and deeper than originally plan due to unexpected perchlorate exceedences.

SUBMITTALS REVIEWED: (Include submittal number, specification reference, and name of submitter.)
